LECKED.—The mountain forests of Fastoria are inhabited, it is said, by Fixies, Sprites and Elves who like the Fhantom Dancers of Germany, delight to entrap travelers into their realms, and terment them with their muschievous antics. Having the power of transferring the spirit, they often in their maticious gambols, give life to the newly dead. Statues, rocks and trees are seen fautastically moving in the forest, but it is only during the pay they retain their feitheous existence; at the approach of night they resume their immobility.
